

Instructions for Filing Report of Malt Beverages Shipped Into the State of Florida

Form [DBPR 4000A-125-1](http://www.myflorida.com/dbpr/abt/forms/auditing/pdfs/4000a-125-1.pdf) must be submitted by the 10th of each month following the month in which the shipments were made. You may download the form at <http://www.myflorida.com/dbpr/abt/forms/auditing/pdfs/4000a-125-1.pdf>.

If no shipments were made during a month, a form must be submitted reflecting “No Shipments”.

Always include the city in which the consignee is located.

If you are shipping to one wholesaler and billing another, list only the wholesaler to which the merchandise was shipped.

Please use the following instructions for calculating the number of pints, quarts or bulk gallons shipped per invoice:

Pints – all 16 ounces or less containers are to be reflected under this column. List only the total number of bottles or cans shipped per invoice, not the total number of cases.

Quarts – all containers between 16.1 and 32 ounces are to be reflected under this column. List only the number of quarts shipped per invoice, not the total number of cases.

Bulk Gallons – all shipments of beer in bulk containers are to be listed under this category. The total number of gallons shipped per invoice should be listed, not the number of kegs or barrels. Please do not convert pints and quarts to gallons.

A conversion chart is included on page 2.

Please include a copy of each invoice listed on this report.

Completed forms should be mailed to:
Division of Alcoholic Beverages and Tobacco
Bureau of Auditing
1940 North Monroe Street
Tallahassee, Florida 32399-1022

Conversion Chart
