(c) Continuing education courses will only be considered for approval when a registered course provider submits DBPR Form HR 5023-017 APPLICATION FOR COURSE PROVIDER REGISTRATION AND COURSE APPROVAL to the department no less than 30 days prior to date the first session of the course is scheduled to be conducted. The application must include: total number of hours of the course; a syllabus that demonstrates topical relevance of the course and includes an accounting of time spent on each topic or subsection in increments of not less than a quarter hour; the name and qualifications of all instructors known at the time of the application; a sample roster; a sample of the certificate provided upon completion of the course; and the course identification number, if known. The department may request additional information as necessary to consider the course for approval.

(d) Any course denied approval may be modified and resubmitted for approval.

(e) The department may not deny or withdraw approval for a course on the sole basis that another approved course provider conducts the same or similar course.

(f) Course approval is subject to continued compliance with the minimum requirements set out in this rule. The department may deny or withdraw approval of a course when the course, course instructor, or course provider fails to meet the requirements of this rule.

(g) Continuing education courses may be conducted through interactive distance learning so long as the course has been approved by the department and complies with all requirements in this subsection.

1. For the purpose of this rule, "interactive distance learning" means the delivery of an approved course via the internet or other interactive electronic media. Such training must be interactive, providing for the exchange of information at regular intervals to promote student involvement, and must provide for the evaluation, monitoring, and verification of course content and completion. Interactive distance learning programs must require the student to complete and submit a statement at the end of the course that the student personally completed each module of instruction.

2. The course provider is responsible for verifying student identification upon each log-in and at regular intervals, and ensuring that one student registration cannot be used to complete the course more than one time. 3. Each course provider must notify the department in writing that it will provide the training program through interactive distance learning. Such notification must include the course provider name; the course identification number; the form of interactive electronic media utilized; the internet address for the course, if applicable; and the name and qualifications of the course instructor responsible for ensuring the course material remains relevant.

(h) The course provider must notify the department in writing of any material changes to the information required by this subsection within 30 days of such change.

(i) The department may conduct random reviews of any approved course, including interactive distance learning courses, to determine compliance and may audit any course if it has reason to believe the course is not in compliance with this rule.

(4) Course Instructor Qualifications.

(a) Course instructors must be affiliated with a registered course provider and possess education and experience that qualifies the instructor to teach the course or parts of the course to which he or she is assigned. 2. Current certification under the American Society of Mechanical Engineers standards as a Qualified Elevator Inspector;

The sign-in sheet must also bear the following statement: "I attest the information recorded herein is true and accurate" above the signature of the instructor and the printed names of the course provider and instructor.

(b) Upon completion of a course, each attendee shall receive from the course provider a certificate measuring 8½ inches by 11 inches, displaying the following: the time and date of the course session; name of the course; number of course hours attended; the course provider's name and provider number

#### **61C-5.020 Disciplinary Guidelines.**

(1) This rule sets out the disciplinary guidelines for imposing penalties upon elevator owners or operators, elevator companies, elevator inspectors, elevator technicians, or certificate of competency holders guilty of violating Chapter 399, F.S. The purpose of this rule is to notify licensees and other persons under the jurisdiction of Chapter 399, F.S., of the standard range of penalties routinely imposed unless the department finds it necessary to deviate from the standard penalties for the reasons stated within this rule.

(2) These disciplinary guidelines are descriptive in nature and do not use the language used to formally allege a violation in a specific case. This rule is not intended to specifically describe all possible violations of law that may be committed by a licensee or certificate holder and that may be subject to penalty imposed by the department.

(3) The department may impose penalties against a licensee or certificate holder for a specific violation not included in the language of this rule. If a specific violation is not included in the language of this rule, the department shall impose a penalty corresponding to the most similar violation listed in this rule.

(4) These disciplinary guidelines do not limit the department's authority to order a licensee or certificate holder to cease and desist from any unlawful practice or other administrative action authorized by law.

(5) Definitions. For the purpose of this rule, a citation issued under Section 399.16, F.S., and Rule 61C-5.023, F.A.C., constitutes a disciplinary Final Order.

(a) "First offense" means a violation of any law subject to penalty under Chapter 399, F.S., when no disciplinary Final Orders involving the same licensee or certificate holder have been filed with the Agency Clerk within the 24 months preceding the date the current administrative complaint is issued.

(b) "Second offense" means a violation of any law subject to penalty under Chapter 399, F.S., after one disciplinary Final Order involving the same law and the same licensee or certificate holder have been filed with the Agency Clerk within the 24 months preceding the date the current administrative complaint is issued.

(c) "Third and any subsequent offense" means a violation of any law subject to penalty under Chapter 399, F.S., after two or more disciplinary Final Orders involving the same law and the same licensee or

certificate holder have been filed with the Agency Clerk within the 24 months preceding the date the current administrative complaint is issued.

(6) Standard penalties. This section specifies the penalties routinely imposed for violations of law subject to a penalty under Chapter 399, F.S. If the same ASME code is cited multiple times on the same elevator during a single inspection, the multiple code violations shall be considered one violation for the purpose of the administrative complaint and penalties.
