

Two Card Poker

- Rules specifying how the game is played: Game is dealt from a 52 card deck. All players place an ante prior to the deal. Two cards will be dealt to each player, one card face up and one card face down starting to the left of the dealer and proceeding clockwise. Each player may examine their cards and exchange one of their cards to improve their hand. The replacement card will be replaced in the fashion it was delivered (ex. A down card will be replaced down, while an up card will be replaced face up.). After all the replacement cards have been dealt, the dealer will announce "Showdown". Players may reveal their two card hand or fold face down. The winning hand is the highest hand of all participating players, based on specified poker rankings.
- Procedures for wagering during the conduct of the game: Each player will post a bet prior to receiving their cards, and prior to the dealer announcing "Bets Please." No bet shall be made, increased, or withdrawn after the action has been completed, or the dealer announces "Action is complete".
