(3)(a) Furosemide (Salix) may be used solely for the treatment of horses participating in pari-mutuel racing events in the State of Florida that have exhibited exercise induced pulmonary hemorrhage (bleeding) as provided below:

1. A "bleeder" shall be defined as a horse which demonstrates evidence of pulmonary hemorrhage within 3.0 hours of exercise as evidenced by fulminant bilateral epistaxis where endoscopic examination is not warranted, or by intratracheal evidence of pulmonary hemorrhage ascertained through endoscopic examination, either of which must be witnessed and certified in writing by a Florida licensed veterinarian. Such certification shall be submitted to the division's Salix Coordinator within 10 calendar days of the bleeding event on Form DBPR PMW-3300, Bleeder's Certificate / Furosemide (Salix) Declaration, effective _____, adopted herein by reference, which can be obtained at www.myfloridalicense.com/dbpr/pmw, by contacting the Division of Pari-Mutuel Wagering at 1940 North Monroe Street, Tallahassee, Florida 32399-1035 or https://www.flrules.org/gateway/reference.asp?No=Ref-_____, adopted and incorporated by Rule 61D-10.001, F.A.C. ~~2. Any horse on furosemide to be entered in a pari-mutuel racing event in the State of Florida shall not require re-certification if the horse has been certified as a "bleeder" and approved for the administration of furosemide by a racing jurisdiction utilizing certification procedures which are approved by the director of the Division of Pari-Mutuel Wagering in Florida. Documentation of certification from approved racing jurisdictions must be evidenced by an official letter signed by a track veterinarian, or division/ State Veterinarian stating that a horse has exhibited exercise induced pulmonary hemorrhage and as a result of such bleeding was determined to require the administration of furosemide prior to participation in pari-mutuel racing events.~~

~~2. 3.~~ A horse which has not exhibited external bleeding may be placed on the Furosemide List after the horse's licensed trainer and licensed veterinarian determine that it would be in the horse's best interest to race with furosemide and so notify the Division's Furosemide (Salix) Coordinator ~~State Veterinarian~~ by submitting, no later than 48 hours prior to racing the horse, Form DBPR

PMW-3300, Bleeder's Certificate / Furosemide (Salix) Declaration, effective _____, adopted herein by reference, which can be obtained at www.myfloridalicense.com/dbpr/pmw, by contacting the Division of Pari-Mutuel Wagering at 1940 North Monroe Street, Tallahassee, Florida 32399-1035 or https://www.flrules.org/gateway/reference.asp?No=Ref-_____.

When the trainer cannot provide written documentation within 48 hours prior to the scheduled post time for the race, the trainer of the horse in question may personally attest in writing that the horse meets all eligibility requirements for the use of furosemide and request that the stewards waive the requirement for receipt of written documentation prior to racing the horse on furosemide. All requests for waiver must be submitted on Form DBPR PMW 3330, Salix Certification Waiver, adopted and incorporated by Rule 61D 10.001, F.A.C. The stewards then may allow the horse to race on furosemide and grant the trainer a reasonable period of time, not to exceed 10 days, to produce the necessary written documentation as required in paragraph (a) above.~~

~~5. All purses, stakes, awards, or other prizes or compensation to be granted as a result of the subject horse's performance in the pari-mutuel event shall be withheld until such time as the trainer who attested to the horse's eligibility to race on furosemide has provided the required documentation. If the trainer fails to provide adequate documentation of the horse's eligibility, the subject horse will be disqualified and the trainer who represented the horse's eligibility to race on furosemide shall be suspended up to 10 days and fined \$500. Any purses, stakes, awards or other prize or compensation will be redistributed in accordance with the disqualification.~~

~~3. (b)~~ When a horse exhibits a bleeding incident and goes on the Veterinarian's List, the horse is suspended beginning the first day after a bleeding incident is observed. Horses placed on the Veterinarian's List for bleeding must remain suspended according to the following schedule:

The official Furosemide (Salix) List shall be maintained by the Salix Coordinator and shall be the official list of horses approved for racing with Furosemide (Salix) furosemide in Florida. Horses placed on the official Furosemide (Salix) List must have Furosemide (Salix) furosemide administered on race day, at a dosage of 150 mg – 500 mg, administered intravenously (I.V.) no closer than 4 hours prior to the officially scheduled post time of the race for which the horse is entered. The Furosemide (Salix) furosemide must be administered by a veterinarian currently licensed pursuant to Chapters 474 and 550, Florida Statutes. Trainers shall notify the Salix Coordinator of the status of these horses 48 hours prior to entry.~~

~~(i) Certified bleeders that run in jurisdictions that allow furosemide/Salix usage, but do not run on furosemide/Salix, will be considered as bleeders and do not have to re-qualify to run on furosemide/Salix in Florida.~~

Any other inoculation shall occur as recommended by the attending veterinarian.

(b) Proof of vaccination for each active or inactive racing greyhound must be kept on file by the kennel owner/operator, trainer of record ~~or designee~~ and be subject to inspection by the division, provided, however, that failure to possess such proof shall not be the basis for disciplinary action if proof of inoculation can be secured through the treating veterinarian.
