

## Board Approved Pre-Licensure Wind Mitigation Techniques Course

Currently the only approved course at this time is listed below. Wind mitigation or technique courses taken from “continuing education” providers will not be accepted.

“Wind Forces Part II: Wind Effects on Buildings/Procedures for Wind-Resistant Design in Practice,” and is offered by the National Council of Architectural Registration Boards (NCARB) at [ncarb.org](http://ncarb.org).

**\*This requirement only applies to direct, state, and NCARB endorsement applicants.**
