Discussion of Rule 61G19-6.012: Provisional Certificates
Mr. Jennings stated that this was a fact-finding meeting and the results would be discussed by the board the following day.

Mr. Robert Kegan, Building Official with Sumter County stated that he was opposed to provisional licenses being issued as the applicants do not have the required experience. He felt that you needed to be tested prior to being a building code administrator.
Mr. McCormick explained the only difference between the provisional license and the standard license was the requirement for the examination, and that the experience requirements were the same.

Mr. Dudley stated that the only thing missing to obtain the full license would be the examinations. He also stated that there was a provision for the small counties and asked Mr. Kegan what he would suggest those counties do. Mr. Kegan responded that if a provisional license was issued, the individual should be required to take and pass the examination within six months, and that the current three years was too much.

Mr. Luther Council stated that he was opposed to the provisional license for a building code administrator. He stated that the board should put special conditions and requirements on provisional licenses. Mr. Council stated that there was no one to supervise the provisional building code administrator.

Mr. Demers stated that they could require applicants to carry at least one standard license in order to be approved for the provisional building code administrator license.

Mr. Barthlow commented that the small communities could hire a private provider until they were able to hire a licensed building code administrator.

Mr. David Hodges stated that if the board makes the decision to continue issuing the provisional building code administrator license, they should limit the scope of their ability as to what functions they can perform.

Mr. Kegan and Mr. Hodges commented on situations where there was damage from a provisional building code administrator.

Mr. Demers, speaking on behalf of Walton County, stated that they were aware that the board closely reviews all applications for the provisional license and they were in support of continuing to issue the provisional license. He stated that there was a situation where they had to come up with a building official immediately and the provisional license was the solution. Mr. Demers commented that he did not consider the examination as a good indicator of performance. He stated that small counties are often unable to attract licensees to fill vacancies, however, they have people within the county that are qualified for the position and they are offered the position.

Ms. Barineau was asked to provide the board with a list of all provisional licensees that have been disciplined.

**ADJOURNMENT**
There being no further comments, the workshop was adjourned at 2:00 p.m., CDT.

DISCUSSION OF RULE 61G19-9.0025: RECIPROCITY WITH DIVISION OF STATE FIRE MARSHAL FOR CERTAIN CONTINUING EDUCATION HOURS

Mr. Andy Janecek, Bureau of Education and Testing, and Ms. Brenda Lundberg, Division of Information Technology, provided a packet of information outlining the process for reciprocity with the Division of State Fire Marshal.

Mr. Janecek asked if the board wanted to review courses from the Division of State Fire Marshal (DFSM) or if the Department would have the authority to approve them. Mr. Dudley responded that according to the statute, it is the board, not the Department, that enters into the reciprocity agreement with the DSFM. He stated that the courses should be reviewed by the Continuing Education Committee within the board for approval or denial as with other CE courses.

Mr. Karl Thompson, DFSM, stated that their classes are not always preapproved. Individuals will take a course and then submit it for review and approval.

Following discussion, Mr. McCormick stated that the board would discuss this further at the full board meeting.

ADJOURNMENT

There being no further comments, the workshop was adjourned at 2:53 p.m., CDT.

DISCUSSION REGARDING THE OUTCOME OF THE RULES WORKSHOP FOR RULE 61G19-9.0025: RECIPROCITY WITH DIVISION OF STATE FIRE MARSHAL FOR CERTAIN CONTINUING EDUCATION HOURS
Chair McCormick stated that the board needed to provide adequate information to staff on this issue.

Mr. Dudley emphasized they were talking about staff working with the DSFM to develop an agreement. He stated that the reciprocity agreement is mandated and the reciprocity is not. Mr. Dudley stated that the board needed to preserve the right for the committee to determine approval or denial of a course.

In discussion, Mr. Jennings stated that they could have an agreement that spells out what will be approved or an agreement that says these are the courses that are approved.

Mr. Janecek commented that there is a provision for providers to electronically submit their attendance rosters, therefore, they need for the DSFM providers to apply in order to impose the same requirements that are required of our providers.

Following discussion, Chair McCormick suggested that he appoint himself to participate with staff in the meetings with State Fire Marshal’s Office.

Mr. Dudley was out of the meeting room at this time.

MOTION: Vice-Chair Gathright made a motion that the board appoint Chair McCormick to an ad-hoc committee to work with the Department and the Division of State Fire Marshal on this issue.

DISCUSSION REGARDING THE OUTCOME OF THE RULES WORKSHOP FOR RULE 61G19-6.012: PROVISIONAL CERTIFICATES
Chair McCormick stated that this workshop was to address building code administrator certificates only. He stated that currently the Application Review Committee approves building code administrator applications for anyone that meets the qualifications, which are same for the standard license. Chair McCormick stated that the Application Review Committee limits all provisional licenses to the jurisdiction that supported the application at the time of issuance.

Mr. Demers stated that according to the rule, they could put limits on the license, which protects the public. Vice-Chair Gathright stated that this was discussed previously and the issuance of provisional certificates have not been a problem.

Mr. Barthlow stated that he felt that provisional licenses should be eliminated, and that they should change the requirement of the five years of experience to be in the building department.

Mr. Dudley returned to the meeting room at this time.

In discussion, Chair McCormick asked Mr. Doug Harvey if BOAF would support abolishing the provisional building code administrator license. Mr. Harvey responded they would be in favor.

Mr. Demers suggested that the licenses be valid for only two years. Vice-Chair Gathright suggested they not abolish the license, just shorten time.

Mr. Barthlow stated that he supported abolishing the provisional license. Mr. Carpenter felt that there was still a need for the provisional license.

Following discussion, the following action was taken.

MOTION: Mr. Dudley made a motion that the board ask the Department to submit a legislative change to abolish the issuance of the provisional building code administrator license.

SECOND: Mr. Barthlow seconded the motion.

In discussion, Mr. Demers stated that they only heard from three individuals yesterday, and they did not hear from any of the cities or counties. He stated that if this legislation was filed, he felt that is when they would hear from the cities and counties, and he did not support this motion.

A vote was taken on the motion which failed with Vice-Chair Gathright, Mr. Demers, and Mr. Carpenter voting against the motion.

MOTION: Mr. Demers made a motion that staff suggest to the Department that a legislative change to the minimum amount of time for a provisional building code administrator license from the current three to five years be reduced to 18 months to five years.
