Major Issues/Actions

The Florida Bar has taken the position that CAM licensees, as part of their providing services to associations, are participating in the unauthorized practice of law. There was no quorum present and therefore no official position was provided by the Council. This special meeting was called by the department so that the public may provide responsive comments either in person or by phone on the position taken by the Florida Bar standing committee. Based on the comments provided during the meeting the department will provide a response to the Florida Bar standing committee.
