Major Issues/Actions

- The Council reviewed Rule 61E14-3.002, Florida Administrative Code, (Special Assessment) for repeal based on a review mandated by Executive Order 11-01. After discussion of the request, a motion was made by Terrence Brennan and seconded by Dawn Warren to repeal the rule. The motion was approved unanimously.
- The Council Chair advised the members that the current political climate is probably not the best time to present legislation to become a board but it should still be pursued later. Kelly Moran moved to table the discussion until the November meeting and Terrence Brennan seconded the request.
- Council member David Beswick requested a discussion of adding language to Section 718.303, Florida Statute. Kelly Moran voted to remove the item from the agenda as this is a matter not in the purview of the Council. Terrence Brennan seconded the request so that Mr. Beswick can address it at a later time when he is present at the meeting and can provide more information.
