REVIEW OF MINUTES

- Final Action – October 2007

The board voted unanimously to approve these minutes.

EXECUTIVE DIRECTOR'S REPORT – G.W. HARRELL

Mr. Harrell stated that the Board office is now referring continuing education providers for investigation for failing to attend the workshops required by statute. Mr. Harrell solicited responses from the board and recommended the board go ahead and approve the pending renewal for the courses and providers currently being investigated. Mr. Harrell also recommended a letter of caution or reprimand and possibly a small fine but not to punish them too harshly. Mr. Flaherty asked the percentage of providers who failed to attend the workshops in relation to all of the providers. Mr. Janecek estimated around 120 providers had not, probably fewer than 10% of all the providers. In response to Mr. Del Vecchio's suggestion to go ahead and suspend their licenses right now, Mr. Harrell reminded the board that they have to go through the investigative process and they cannot be summarily disciplined. Mr. Holloway suggested that the suspend all of their courses while the investigations are being conducted, but Mr. Janecek reminded them of the deemer clause for their applications and that it may need to be addressed in Committee as far as denying the applications, etc. Mr. Kalmanson suggested that the providers be fined on a per person basis for each person who took the course while they were not compliant, and that referral from the prosecuting attorney for objection or non-objection be done for these applications. Mr. Harrell suggested that a closer review of penalty guidelines be performed and that decision could be made when the course renewal was due in front of the board. Mr. Harrell also reminded the board that it is within their power to revoke or suspend a provider's license. Mr. Del Vecchio suggested that, during Committee, the providers be given the option to waive the deemer and postpone a decision until the investigation has concluded, or face denial at that moment. A brief review of the penalty guidelines occurred. Mr. Kalmanson brought the main issue back up, and that's what to do with these providers who have not attended the workshops who are still submitting course applications. The motion was made and seconded to issue a \$500 citation to the providers for a first offense for failing to attend the workshops. Mr. Harrell brought up that rule revision would have to occur sometime in the near future to revise this rule.

Mr. Harrell informed the board that a collection agency had been contracted by the Department to collect outstanding fines and costs issued as discipline.

Mr. Harrell also introduced David Spingler as the new Administrative Assistant for the Construction board.

With no further discussion the board voted unanimously to approve this report.

Mr. Kodsy was present.

Mr. Biggins presented this hearing as a request for early termination of Mr. Kodsy's probation. residential and multiple family structures requires a state license, and, if a state certified contractor performs the above work, would they also need a local competency card for that work, and if they don't have a competency card, would they be considered unlicensed?

After discussion the board denied the petition for failing to ask the question in the proper format, and requesting interpretation of local ordinances.

STEVE ALLEN REGISTER – REQUEST REINSTATEMENT OF NULL & VOID LICENSE

Mr. Register was present.

Mr. Biggins presented this petition as a request to reinstate the Null & Void certified building contractor's license of Mr. Register. Mr. Register's license went Null & Void in September of 2006. The petition was filed in September of 2007.

Mr. Tufts was not present.

Further clarification was requested on the interpretation of the mechanical contractors scope of work.

After discussion the board voted that the petitioner has standing, but refused to answer the question as the petitioner was seeking a statement of general applicability rather than answers to a specific situation.

KEITH WILSON – REQUEST FOR INFORMAL HEARING

Mr. Wilson was present.

Mr. Biggins presented this as a petition by Mr. Wilson to reinstate his revoked registered roofing contractor's license. The board voted to deny the petition at the July 2007 meeting of the board for failure by the application to provide proof of rehabilitation. After discussion the board voted unanimously to reinstate the license.
