License Mailing Address - This is the address where the mail associated with a particular license will be sent (if different from the main or license location addresses).

License Location Address - This is the address where the place of business is physically located.

An example of the use of different addresses:

If Jane Doe is a contractor that works for ACME Builders, she may have 3 different addresses listed in her profile. Her main address would be the address of ACME Builders' corporate headquarters. Her license mailing may be her home so she doesn't have to visit the office to pick up her mail. Finally, her License Location would be the address of the ACME Builders' local office where she works. If Jane Doe worked independently, she might have only one address on file (Main Address) as her office is the same place she wishes to receive her mail.

The main address and license mailing address can be changed online for all license types.
