

MMA IS ILLEGAL!

According to the Environmental Protection Agency, methyl methacrylate (MMA) is irritating to human skin, eyes and mucus membranes. Studies show MMA also causes respiratory problems during periods of acute (short-term) and chronic (long-term) exposure.

MMA is not just hazardous to your health—it's illegal.

Section 477.0265(1)2(h), Florida Statutes: It is unlawful for any person in the practice of cosmetology to use or possess a cosmetic product containing a liquid nail monomer containing any trace of methyl methacrylate (MMA).

Effective July 1, 2004, any person or salon found in possession of MMA can face fines, suspension and revocation of license.

Using products with MMA can harm you, your clients and your business.

Florida's Future...
