This lists details the states and categories of licensure the Florida Electrical Contractors' Licensing Board currently recognizes as having substantially similar examinations for the purposes of endorsement under 489.511(6)(a), F.S.

If your state of licensure is listed as not recognized for endorsement you can apply for licensure by first taking and passing the Florida examination. Please refer to the [application](#) for further information.

If your state of licensure is not on this list you must provide documentation along with your application in order for us to evaluate that state. Please refer to the [application](#) for further information.
