The Court Reporter swore in, as a group, the applicants and those persons providing testimony on behalf of the applicant. Mr. Smith asked of the second business applicants collectively as a group:

“Do you understand that you will be legally responsible for every job undertaken by this business?”

Do you understand that you will be financially responsible for every job undertaken by this business?”

Do you understand that you are required to approve the work done on every job undertaken by this business?”

Do you understand that your license is dependent upon how seriously you take these responsibilities?”

Each applicant answered affirmatively to each of the preceding questions.

Petitions for Declaratory Statement, Deborah Loucks, Esq., Assistant Attorney General

Petition for Declaratory Statement – 3M

The petitioner was not present nor represented by counsel. The Petition seeks the Board's opinion in response to the following questions:

Can the Owner contract with us to provide a turn-key solution including provision of the equipment and hiring of the licensed electrical contractor to install the equipment and once the equipment is installed, do we need a license to service and maintain the equipment?

MOTION: Mr. Flaherty made a motion that Petitioner is required to be licensed by the Board in order to hire the electrical contractor to install the equipment. Petitioner cannot contract with the owner and then subcontract the electrical work without a license. In response to the second question, no license is required to perform incidental electrical work, including removal of the wires, when servicing or maintaining the equipment. Any electrical work beyond the removal of wires must be performed by a licensee.

SECOND: Mr. Cannava.
Motion passed unanimously.

Petition for Declaratory Statement – Black Hawk Protection Services, Inc.

The Petition seeks the Board's opinion in response to the following questions:
Is an alarm contractor license required to watch and listen (monitoring) to a CCTV audio and video system? And do the functions described in the petition fall within the ambit of Section 489.518(2)(a), F.S.?

MOTION: Mr. Flaherty made a motion that Petitioner is required to be licensed by the Board in order to provide the watch and listen (monitoring) functions described in the petition. In response to the second question, if Petitioner's employees are performing only monitoring activities (as monitoring is defined in the statute), then Section 489.518(2)(a), Florida Statutes, would apply and those employees would not be required to become Burglar Alarm System Agents.

SECOND: Mr. Sandefer.
Motion passed unanimously.

Petition for Declaratory Statement – G4S Technology, LLC

The petitioner was not present nor represented by counsel. The Petition seeks the Board's opinion as to whether underground conduit installation is within the scope of licensure for a Certified Alarm System Contractor I.

MOTION: Mr. Chinchor made a motion that the installation of underground conduit that is part of the installation of an alarm system (provided that the wire and voltage do not exceed 98 volts) falls within the scope of an Alarm System Contractor I licensee.

SECOND: Mr. Sandefer.
Motion passed unanimously.

Petition for Declaratory Statement – Kleinbard Bell Becker, LLP

The petitioner was not present nor represented by counsel. The Petition seeks the Board's opinion as to whether the safety-related video-conferencing application for smartphones requires a license.

MOTION: Mr. Flaherty made a motion that the Board decline to answer Petitioner's question regarding the application of the definitions of "alarm system" and "monitoring" to Petitioner's circumstances because the Board believes that the statutory definitions set forth in Section 489.505, Florida Statutes, and any applicable exemptions are clear.

SECOND: Mr. McHaffie.

Motion passed unanimously.

Petition for Declaratory Statement – National Conductor Constructors

The petitioner was not present nor represented by counsel. The Petition seeks the Board's opinion as to what types of licenses would be required for the four divisions listed in the Petition.

MOTION: Mr. Chinchor made a motion that a Certified Electrical contractor licensee could perform all of the activities described in each division; that a Registered Electrical contractor licensee would likely be able to perform most, if not all, of the described activities; and that some of the described activities could be performed by an utility line electrical specialty contractor.

SECOND: Mr. Flaherty.

Motion passed unanimously.

Petition for Declaratory Statement – Vergona Bowersox Electric, Inc.

The petitioner was not present nor represented by counsel. The Petition seeks the Board's opinion as to scope of authority of a certified electrical contractor when installing solar photovoltaic systems.

MOTION: Mr. Sandefer made a motion that an electrical contractor can: bid and be the primary solar contractor on any solar project; do concrete foundations incidental to the installation of the solar photovoltaic system; and can provide structure, support and penetrations that are incidental to the system installation.
