The board denied the application on the grounds that there is a loss of civil rights due to several felony convictions; and those rights have yet to be restored. Pursuant to Section 112.011(1)(b), F.S. you are not eligible for professional licensure without the restoration of your civil rights.

The Notice of Intent to Deny was filed with the Department on December 28, 2004, and serviced to Mr. Vetter by return receipt certified mail. Mr. Vetter received the document and timely submitted an Election of Rights Form. The notice of the hearing date, time and location was serviced to Mr. Usher on December 23, 2004, scheduling the hearing for January 27-28, 2005 at 9:00 a. m.

Mr. Vetter was present but was not represented by counsel. Mr. Vetter was sworn in by The Court Reporter. Ms. Clark introduced the matter for the record. After much discussion Ms. Clark pointed out that Section 112.011(1)(b), F.S. gives the board the authority to allow denial of licensure due to loss and non-restoration of civil rights.

MOTION: Mr. Mugford made a motion to uphold the denial.

SECOND: Mr. Langer

The board voted on the motion. The motion passed unanimously.

Michael G. Villar

Mr. Villar was not disputing the denial facts but wanted to address the board in reference to the time-frame of being registered. After discussion

MOTION: Mr. Abreu made a motion to reverse the denial and approve the application

SECOND: Mr. Tibbs

The board voted on the motion. The motion passed; however, Mr. Sanderfer asked that the record reflect that he opposed the approval.

Robert C. Worth
Application Denial – Unlimited electrical Contractor’s License (Second Business Application)

This matter first came before the board at a duly noticed public meeting on November 18-19 2004, in Tallahassee, FL. The board denied the application on the grounds that the application failed to demonstrate the financial responsibility required by 489.521(8), F.S. and the application included evidence of assisting unlicensed activity in violation of 489.533(1)(j), F.S.

The Notice of Intent to Deny was filed with the Department on December 9, 2004, and serviced to Mr. Worth by return receipt certified mail. Mr. Worth received the document and timely submitted an Election of Rights Form. Mr. Worth submitted a CPA prepared financial statement reflecting the financial requirements. Mr. Worth testified under oath that there was not unlicensed activity. The originally submitted financial statement reflected accounts receivable due to the transferring of funds internally. Mr. Worth testified under oath that Safe Electrical Services Inc is not and has not been officially operating and an electrical company. After discussion

MOTION: Mr. Mugford made a motion to reverse the denial based upon the sworn testimony given.

SECOND: Mr. Bellemare

Mr. Chadick testified under oath that he submitted an application by examination via the internet. After discussion

MOTION: Mr. Mugford made a motion to approve the reconsideration for applying under the grandfather provision.

SECOND: Mr. Tibbs

The board voted on the motion. The motion passed unanimously.

Larry McDonald

**Application Denial – Fire Alarm System Agent (CE)
Fire Alarm System Agent (Training)**

This matter first came before the board at a duly noticed public meeting on October 5-6, 2004, in Tallahassee, FL. The Continuing Education Committee denied the application on the grounds that the application failed to show compliance with Rule 61G6-9.006(5), F.A.C. in that the course content does not meet the requirement of Section 489.5185(5), F.S. to include false alarm prevention.

Richard L. Rossi

Bayo', timely filed a Petition for Formal Hearing. The Notice of Intent to Deny was filed with the Department on December 13, 2004 and serviced to Mr. Torres by return receipt certified mail. . Mr. Torres received the document and timely submitted an Election of Rights Form. The notice of the hearing date, time and location was serviced to Mr. Torres on December 23, 2004 scheduling the hearing for January 27-28, 2005 at 9:00 a. m.

Mr. Torres was not present nor was he represented by counsel. Ms. Clark introduced the matter for the record. Since Mr. Torres was not present nor was additional information submitted the decision was to let the denial stand. No motion was made.

LEGISLATIVE COMMITTEE REPORT – Norman Mugford, Vice-Chairman

Mr. Mugford did not have anything new to submit since the previous Board Meeting (November 2004). He did note that there has been a bill submitted by a Legislator from Palm Beach County. The intent of the bill is to exempt all home owners and condo owners / associations from requiring licenses for monitoring. There is currently a companion bill in the House moving its way through. Most of the associations and organizations that Mr. Mugford has been in contact with, including the Fire Marshall's Office, opposes this bill. Mr. Mugford wants to make the Board aware of the two bills; Senate Bill SB596 and House Bill HB309. Senator Kline is sponsoring the senate bill and House Representative Maecheck is sponsoring the House Bill.

Also, there is another bill at the U.S. Senate. The bill does not have official sponsors yet, but is in the process of being written. This bill will allow national monitoring companies to be exempt from any state's licensing laws; to include our presently in-place Florida laws.

RULES COMMITTEE REPORT – Clarence Tibbs

December 204 Rules Status Report

Mr. Tibbs turned the floor over to Ms. Clark for reporting. The previously voted on rules are now being reflected on the tabulated report with effective / adopted dates. Ms. Clark pointed out in particular 61G6-9.001 Continuing Education for Reactivation. She and Mr. Tibbs are currently working on the language in particular to address the situation when an inactive license holder is wanting to reactive. The previously established rule stated the maximum number of hours required for reactivation but the rule does not specify the distribution over the types of courses that needed to be taken. The proposed language is specifying the hour conditions (as is underlined in the agenda attachment).

Mr. Sandefer questioned the inclusion of the phrase "if applicable" (as pertinent to the Alarm Contractors) should also be added to the rule. To include the phrase would remain consistent with Section 489.517(4)(b). Through discussion, it was determined that the phrase should be incorporated into the Rule language.

MOTION: Mr. Sandefer made a motion to accept the language as is presented with the addition of the phrase "if applicable" as pertaining to the Alarm Contractors.

SECOND: Ms. DeBerry

The board voted on the motion. The motion passed unanimously

Rule 61G6-5.009, F.A.C., Endorsement

Ms. Clark is asking Mr. Knap why this is a proposed Rule change versus a Statute change. Mr. Knap noted that the endorsement application seems to be present problems for the applicants due to the fact that the examination stipulation is not stated / publisized at the time of application. The endorsement applicant is going all the way through the administrative process only to be notified of denial due to the examination

evaluation requirement. Mr. Kiner suggested that this proposed rule to be added to next meeting's agenda. No action was taken at this time.

PROBATION COMMITTEE REPORT – Paul Sandefer

Mr. Sandefer pointed out the submitted report from Mr. Peter Langdon and Mr. Thomas Wynn. The report findings are satisfactory. Mr. Sandefer, for the Committee, recommends approval of both probationary reports.

MOTION: Ms. Small made a motion to accept the reports as submitted.

SECOND: Mr. Bellemare

The board voted on the motion. The motion passed unanimously

UNLICENSED ACTIVITY (ULA) REPORT – Kim DeBerry

The Committee reviewed the Electrical Contractors' Licensing Board ULA statistical report. Currently there are 51 ECLB related unlicensed activity cases open in OGC, Unlicensed Activities Section.

Mark Reddinger addressed the board regarding the progress of the public service announcements (PSA) for unlicensed activity. He asked for one board member to be the point of contact for review of the PSA's. Ms. DeBerry will be the contact.

MOTION: Mr. Mugford made the motion approving the Department to move forward with the PSA creation.

SECOND: Ms. Small

The board voted on the motion. The motion passed unanimously

EXAMINATION REPORT – Clarence Tibbs

At this time Mr. Tibbs directed the Board's attention to the examination summary report of 2004.

Upon discussion of the pass / fail report, Mr. Abreu asked why exam candidates names are being reflected as public record / information. Mr. Abreu feels as if this information is not necessary information to the report; that the names being published is serving no purpose. He is requesting that the names be removed from the future reports / lists. Mr. Knap is going to pursue that issue.

Mr. Tibbs called attention to the [draft] proposed correspondence from the Bureau of Education and Testing. Upon approval status of the examination, this letter will be forwarded to each exam candidate informing them of the approval status and instructions on contacting the examination vendor, Promissor, for scheduling of the CBT portion of the exam.

EXECUTIVE DIRECTOR'S REPORT – John Knap

Mr. Knap directed the Board's attention to the progression of the Continuing Education (CE) Office of the monitoring of CE renewal compliance of license holders. The CE office is getting ready to mail out letters to the license holders noting their areas of CE requirement deficiency(s). Ms. Clark asked why this non-compliance is not being handled through discipline. Mr. Knap stated that it would be, eventually; however, the deficiency letters are serving as a vehicle of notification to the license holder. Notification of their individual areas of CE deficiency as well as time-frame of compliance.

Mr. Knap summarized the ECLB Performance Standards Report. He went on to explain some of the reasons for trends / fluctuation of numbers; i.e. renewal expiration periods, residual effects from the hurricane; examination passing thus experiencing licensure application increase, etc.

Mr. Knap mentioned the NASCLA letter that had been forwarded to the Department. NASCLA is asking for cooperation from states in the development of a national trade examination; not a standardized test definitively, but a testing standard. Therefore, if each has a set of national testing standards then licensure via endorsement would eventually be a smoother process.

PETITION FOR DECLARATORY STATEMENT - Mary Ellen Clark, Esq., Assistant Attorney General

**David Walker and Stacy Walker (the "Walkers") c/o M. Joseph Dickerson,
Dickerson Law Firm**

In Petition DS 2004-031, filed on November 1, 2004, Mr. Dickerson is wrote in part:

"... Accordingly, the Walkers hereby request a declaratory statement be issued declaring as follows:

"... A person or business organization that installs low voltage components, as set forth in 61G6-7.004(4), F.A.C. is required to possess a Limited Energy Systems Specialty License, even though the high voltage component(s) are connected by an appropriately licensed electrical contractor..."

Neither Mr. Dickerson nor the Walkers were present. Ms. Clark introduced the matter for the record. Ms. Clark has notified Mr. Dickerson, by letter, of what her legal advise to the board will be. The Walkers are not eligible to petition to the board. Only those individuals who are subject to regulation by the board may petition the board for a declaratory statement. Given that they [the Walkers] are asking for a statement on behalf of someone else regarding the actions of someone else they are not eligible to receive an answer. Based on insufficient standing, it would be appropriate for the board to deny the request.

MOTION: Mr. Bellemare made a motion to deny the request

SECOND: Mr. Sandefer

The board voted on the motion. The motion passed unanimously

CHAIRPERSON'S REPORT – Jeffrey Kiner, Chairman

Mr. Kiner noted that the Pensacola location probably was not very conducive, due to hurricane damage, for the next meeting's location. Several different replacement locations were recommended; ultimately Ft. Lauderdale was decided upon for the March 2005 meeting location.

Mr. Kiner pointed out that this meeting's agenda was heavier than usual, and that the Board should be prepared to possibly experience two full days of business. Counsel pointed out that the FAW meeting notice should be made for 8:00 a.m. and hearing notice letters will state 9:00 a.m. so the Board could make the collective decision to actually start at 9:00 if the agenda is light.

Motion was made to adjourn the meeting. The motion passed unanimously.
