II. Major Issues/Actions

- The Board discussed the FWCJUA's proposal that licensing and FWCJUA coverage occur simultaneously rather than the Board requiring FWCJUA coverage to be in place at the time it considers the licensure application. The Board agreed to approving an application for licensure subject to receipt of proof of workers' compensation coverage by the Board's next meeting and communicating that conditional approval to the FWCJUA and the applicant. The Board agreed that once staff receives the proof of coverage a license could be issued; however, if the proof of coverage is not received by the Board's next meeting, it may rescind the applicant's conditional approval. The Board added that a license will not be issued and the applicant cannot do business until such time as proof of coverage is received.
- The Board reviewed eleven initial licensure applications. Five applications were approved, two applications were approved with conditions, and four applications were approved with contingencies.
- The Board reviewed two change of ownership applications. One application was approved and one application was approved with contingencies.
- The Board reviewed and approved one company name change.
