7 8 9	GENERAL BUSINESS MEETING June 16, 2004
10 11 12	Call to Order
13 14	Mr. Davis called the meeting to order at 10:00 a.m.
15 16	Members Present
17 18 19 20 21 22	Paul Davis, Chair Elizabeth Gillick, Vice Chair Collene Walter Phillip Graham Elizabeth Marshall-Beasley
23	Others Present
24 25 26 27 28 29	Barbara Edwards, Board Counsel Charlie Pellegrini, Prosecuting Attorney Juanita Chastain, Executive Director Linda Tinsley, Government Analyst
30	Discussion
31 32 33	Advanced Building Code Courses
34 35 36 37 38 39 40	Ms. Chastain advised the board that she and Ms. Edwards met with the Bureau of Education and Testing. She stated that they addressed the board's concerns about the review and approval of advanced courses. She stated that they are attempting to have the board approved by the Florida Building commission as an accreditor. Ms. Chastain stated that if they were approved every course would automatically be approved by the Florida Building Commission.
41 42 43 44 45	Ms. Walter advised the board that she attended the Florida Building Commission meeting on Monday June 14, 2004 for the Education Technical Advisory Committee. She stated that it was the Florida Building Commission's recommendation that the responsibility for review and approval of advanced building code courses be delegated to the individual licensing boards. She

stated that this was in response to the overwhelming dislike of the core courses being so general and the fact that most of the licensing boards want the ability to make sure the advanced courses were more specifically tailored for each of the individual professions. She stated that the Florida Building Commission agreed and submitted legislation in regards to changing the current law, which states that instead of the Florida Building Commission being responsible for providing advanced courses that it would be delegated to the individual licensing boards. She stated the legislation failed and the law was never changed. Ms. Walter advised the board that the Board of Landscape Architecture did approve the requirement for two (2) hours of advanced courses. She stated that many of the other licensing boards had not made a determination or set a one (1) or a zero (0) as the requirement for advanced courses. She stated that the Board of Landscape Architecture did set two (2) hours and the board did approve advanced courses based on the assumption that the legislation would pass. She stated that the issue was discussed at length with the representatives and members that were there. She stated that Mr. Dick Brody, the Chair was present and he is aware of the profession and some of the issues the board faces and he complemented the board for being pro active and for being one of the few professions that actually did require advanced code course training and has been working diligently to bring those courses on line. Ms. Walter stated that Mr. Brody asked her to apologize to the board that the Landscape board is one of the few boards that are following the proposed rules and unfortunately the proposed rules were not implemented.

Ms. Walter stated that the Florida Building Commission was going to delegate responsibility for reviewing and approving the advanced courses to the individual licensing board. She stated that the Florida Building Commission was also going to set up a voluntary accreditation process where certain individuals would submit an application to show that they were experts in certain fields of the building code and they would be able to review courses that were submitted to make sure the courses comply and accurately present the various elements of the building code. She stated that the purpose is to assure that when the course is presented by the provider the accreditor will review the course outline and content and they will certify to the board that the course accurately reflects the information in the building code.

80 81 82

Ms. Marshall-Beasley asked how the Landscape Architect Licensees would know if an Architect course is approved for a Landscape Architect.

84 85

86

87

83

Ms. Walter advised Ms. Marshall-Beasley that the licensee would check with the licensing board to see if it is approved. She stated that because the authority was not delegated by a legislative change the Building Commission is still the entity responsible for preparing and offering the courses.

88 89 Ms. Gillick asked Ms. Walter if courses were denied by the Florida Building Commission would the licensing boards be contacted.

91 92 93

94

95

90

Ms. Walter advised Ms. Gillick that the Florida Building Commission does not have a process in place to review and approve courses. She stated they had not developed any rules because they were under the assumption that the authority was going to be delegated to the boards.

Ms. Walter stated that the Florida Building Commission is still responsible for reviewing and approving courses and they have set up a voluntary accreditation process. She stated that now the Florida Building Commission has to do rule making in regards to how they will review and approve courses. She stated what they are thinking of doing is taking the voluntary accreditation process and having that be the official process where by a provider would submit a course and it would be reviewed by the individual accreditor and based on the accreditor's recommendation the course would be sent to the various technical advisory committee's of the Florida Building Commission. She stated that if it was a plumbing course and touched on irrigation that course would go to the technical advisory committee for plumbing and they would review the course and most likely agree with the accreditor and send their recommendation to the Florida Building Commission and the Commission would approve the course. She stated that at this time there are no rules in place to implement the approval process. Ms. Walter stated that the Florida Building Commission is still determined to get the legislation passed to delegate the authority to the licensing boards. She stated the reason the legislation did not pass had nothing to do with the concept it had to do with the additional items added to this piece of legislation. She stated they hope to submit the legislation separately next session. She stated they are trying to implement a temporary fix in the meantime for Landscape Architecture, Construction Industry Licensing Board and those professions that have adopted advanced credit requirements. Ms. Walter stated that the Board of Landscape Architecture could submit to the Florida Building Commission the name of a board member to be approved as an accreditor which would allow them to review advanced courses for Landscape Architecture. stated right now there is not a rule in place to approve this person. She stated that the current law requires the Florida Building Commission to approve the advanced courses. Ms. Walter stated that one option is to have the Board of Landscape Architecture submit an application to become an accreditor and someone be the qualifier who reviews the applications and hope that the Florida Building Commission expedites the rule process to implement the process for the courses to be submitted to the appropriate technical advisory committee and to the Florida Building Commission for approval. She stated that the second option is to not approve any advanced courses and see what happens in the next legislative session. Ms. Walter stated that the problem with that is that it would be a year into the licensing renewal period. Ms. Walter advised the board that

the board could change their rules to not require two (2) credit hours of advanced building code or to make it optional. Ms. Chastain advised the board that the requirement was in the statute. Ms. Walter stated that the board could set the requirement at zero (0). Ms. Edwards stated that one of the concerns is what the Florida Building Commission plans to do with regards to those courses that the board had already approved and now that they have to approve because the legislation did not pass. She stated that the board could write a letter and the Commission would probably approve the courses. Ms. Gillick stated that Ms. Walter does a great job but she feels that the full board should approve the courses. Ms. Walter stated that the Florida Building Code's idea is that the individual qualifier or accreditor would be an expert as it relates to the subject trade areas of the building code. She stated that the trade areas are not set up by profession they are set up by the segments of the building code. She stated that from the landscape architecture standpoint the profession deals with some aspects of accessibility, commercial pools and spas, residential pools and spas. She stated that the accreditor would be looking at building code specific not profession specific. Ms. Walter stated that as the situation relates to the current courses the board has approved she asked that if Ms. Edwards feels the Florida Building Commission would approve the courses based on the fact the Board of Landscape Architecture complied with the legislation she suggested that the board direct Ms. Edwards to send a letter as soon as possible asking the Florida Building Commission to approve the advanced courses. Ms. Walter stated that this would solve the immediate problem. Ms. Walter stated that the building code itself has been changed this past year and it will be changed again substantially in about three (3) years. Ms. Walter stated that the legislature has not made up its mind how they are going to handle the situation and t

	178	on with the Florida Building Code Commission.

179	Ms. Walter advised the board that the next Florida Building Commission was in
180	August. Ms. Walter stated that her recommendation would be to get a letter out
181	to the Florida Building Commission in regards to the advanced courses that the
182	board has approved and have the commission approve the courses as advanced
183	courses. She stated that she would recommend that Ms. Edwards contact Jim
184	Richmond, the attorney for the Florida Building Commission, in regards to the
185	time frame for the rule making that the Commission has to do to allow the Florida
186	Building Commission to review and approve advanced courses from outside
187	providers. She stated that Ms. Edwards could report back to the board at the
188	July meeting.

189 190

Ms. Marshall-Beasley stated that she thought Mr. Davis was making sense with his suggestion of a wait and see attitude.

191 192 193

194 195 Ms. Walter stated that her concern was that come November and the legislation does not pass and the Florida Building Commission has not been pro active with their rule making then the board is less than ten (10) months into their licensing renewal cycle.

196 197 198

Ms. Marshall-Beasley stated that the board could do a rule change and set the requirement to zero (0).

199200201

Ms. Edwards stated that other boards have set the number at zero (0) in their rules.

202203204

Mr. Graham stated that the board should wait and see and setting the number to zero (0) seems to be a reasonable thing to do.

205206207

Ms. Edwards stated that her recommendation would be that the board develop the rule now and that gives the board a full year to get it adopted.

208209

Motion: Ms. Marshall-Beasley made a motion to direct Ms. Edwards to move forward with the rule development to set zero (0) hours and to direct Ms. Chastain and Ms. Edwards to pursue approval for current courses.

214215

SECOND: Ms. Walter seconded the motion and the motion passed unanimously.

216217218

Response to James Penrod – CLARB

219220

221

222223

Ms. Edwards advised the board that the letter in their agenda was a change to the draft that was presented earlier. She stated that it was developed as the results of a meeting that took place between Ms. Chastain and George Ayrish from the Bureau of Education and Testing. Ms. Edwards stated that she thought

224 225	it was appropriate and it covers all the bases and she asked the board to approve the letter as presented.		
226227228	Mr. Graham stated that he liked the letter as is.		
229 230	The board directed Ms. Edwards to send the letter as presented.		
231 232	Ratification	List	
233234235236	Ms. Marshall-Beasley stated that she had to leave the conference call in a half ar hour and she asked the board if they could review the ratification list before she had to leave.		
237 238 239	MOTION:	Mr. Graham made a motion to amend the agenda and review the ratification list as the next agenda item.	
240 241 242	SECOND:	Ms. Gillick seconded the motion and the motion passed unanimously.	
243 244 245 246	Ms. Marshall-Beasley stated that if the board received a ratification list how does the board know that the Department has researched their backgrounds appropriately.		
247248249	Mr. Davis stated that one of the principals has to be a Landscape Architect and they have to provide documentation as part of the application.		
250 251 252	Ms. Marshall-Beasley stated that if there was some action in progress how would the board be made aware of that.		
252 253 254 255	Ms. Chastain asked Ms. Marshall-Beasley if she was asking about criminal history or discipline.		
256 257	Ms. Marshall	-Beasley answered yes.	
258 259 260 261	Ms. Chastain advised the board that she would research the board's rules. She stated that one of her other boards by rule can deny an application based on criminal or discipline history against any one named on the application.		
262 263 264	Ms. Gillick stated that she would feel more secure if she was assured that it was checked before the application was put on the ratification list.		
265 266 267 268	were checke Unit to make	a advised the board that she she felt confident that the applications d for past disciplinary action but she would ask the Central Intake a notation on each ratification list that all pertinent documents had ed and confirmed.	

MOTION:	Mr. Graham made a motion to approve the following candidates on the ratification list.
SECOND:	Ms. Marshall-Beasley seconded the motion and the motion passed unanimously.

448 449 450	credentials in the rule.		
451 452	Ms. Edwards stated that she would contact Ms. Walter to discuss exactly how much information needs to be provided.		
453 454	Irrigation A	ssociation – Provider Application	
455 456 457 458 459	Ms. Walter stated that the provider application from Irrigation Association was complete and she obtained additional information from their web site and she recommended approval.		
460 461	MOTION:	Mr. Graham made a motion to approve the provider application for Irrigation Association.	
462 463 464	SECOND:	Ms. Marshall-Beasley seconded the motion and the motion passed unanimously.	
465 466	New Busin	ess	
467 468 469 470 471	Ms. Walter advised the board that between the continuing education application review and the Florida Building Commission that she is having a conflict with her time. She asked the board if someone else on the board could take over or they could be a designated back up.		
472 473 474	Ms. Marshall- Beasley stated that she would gladly be back up for the continuing education review.		
475 476 477	Ms. Chasta divide the a	in asked Ms. Walter and Ms. Marshall-Beasley if they wanted to pplications.	
478 479	They both a	greed.	
480 481 482 483		Ms. Walter asked that Alex would call in an emergency and check to see who had the time to review the applications.	
484 485 486 487 488 489 490 491	Ms. Walter advised the board that RedVector.com is an approved provider. She stated that they had submitted and approved on the last board agenda various renewal courses. She stated that the Florida Landscape Architect Laws and Rules course which was previously approved was not included in the agenda items. Ms. Walter stated that it was an oversight and the provider has been offering the course. She stated that the provider is asking that the course be approved retroactive.		
492	Mr. Davis as	sked Ms. Edwards if the board could approve the course retroactive.	

493 494	Ms. Edwards asked if the provider forgot to send the course or did the continuing education area fail to include it in the agenda material.		
495 496 497	Ms. Gillick stated that she agreed with Ms. Edwards if it was Red Vector's fault the board should not approve the course.		
498 499 500 501 502 503	had informe	advised the board that she had correspondence from Alex and she d the provider that the course was approved and she had not ne course to the board for approval and it was an oversight on her	
504 505 506	MOTION:	Ms. Marshall-Beasley made a motion to approve the course retroactive.	
507 508 509	SECOND:	Mr. Graham seconded the motion and the motion passed unanimously.	
510 511 512		II-Beasley advised the board that she gives Alex a lot of credit for one her mistake and for figuring out how to resolve it.	
512 513 514	Ms. Chastai	n stated that she would pass that message on to Alex.	
515 516 517	Ms. Chastain advised the board that she checked with Ms. Estes about the applications and all applicants are checked against the complaint screen.		
517 518 519	Old Busine	ss	
520 521 522 523 524 525 526 527 528	Ms. Chastain asked the board if everyone had received the brochure from David Nam and what the board's opinion was of the brochure. She stated that she was not familiar with the board's logo that was on the brochure and she would send it to the Department's Communications office for approval. She asked if the board agreed to provide funds for the distribution of the brochure. She stated that Mr. Nam wanted the board to distribute them to the licensees and regulatory agencies. Ms. Chastain stated that she felt it was not a large number maybe 2000 and she stated she would check with the print shop on the cost.		
529 530 531	Mr. Graham asked Ms. Chastain if what the size of the brochure would be because the lettering was too small to read.		
532 533	Ms. Chastain stated that she would share the board's concerns to Mr. Nam.		
535534535	Mr. Davis st	ated that he had a call to hang on to his Maestre material.	
536 537		s stated that she had determined that the Maestre order could be he board determined was appropriate at the last meeting.	

538 539 540 541 542	that cannot	be imposed under the statutes. She stated there is a \$5000.00 tand there are rules that provide for penalties of \$10,000.00 that mposed.	
543 544	Mr. Davis advised the board that the next meeting would be July 30, 2004 in Daytona Beach at the ASLA conference.		
545 546	MOTION:	Ms. Gillick made a motion to adjourn.	
547548549	SECOND:	Mr. Graham seconded the motion and the motion passed unanimously.	
550551552	The meeting	g adjourned at 11:20 a.m.
