10. Can I change my address online?

Yes. Visit our website at www.MyFloridaLicense.com > Apply For/Update Licenses. You can also change your telephone number and email address here.

11. Your website provides for "main", "mailing", and "location" addresses. What are the differences?

Three types of addresses have been established to support your needs: main, license mailing, and license location.

Main Address - This address is the primary address on file.

License Mailing Address - This is the address where the mail associated with a particular license will be sent (if different from the main or license location addresses).

License Location Address - This is the address where the place of business is physically located.

An example of the use of different addresses:

If Jane Doe is a contractor that works for ACME Builders, she may have 3 different addresses listed in her profile. Her main address would be the address of ACME Builders' corporate headquarters. Her license mailing may be her home so she doesn't have to visit the office to pick up her mail. Finally, her License Location would be the address of the ACME Builders' local office where she works. If Jane Doe worked independently, she might have only one address on file (Main Address) as her office is the same place she wishes to receive her mail.

12. Can I change all license addresses online?

The main address and license mailing address can be changed online for all license types. License location addresses can also be changed online, except for Barbershops, Cosmetology Salons, Veterinary Establishments, and Talent Agencies. The location for these license types is tied to the license, so a location change will require submission of a new application.

13. How can I change my address if I do not have a computer?

You may submit the change in writing or by fax to:
Department of Business and Professional Regulation
Central Intake Unit – License Maintenance
1940 North Monroe Street
