Mr. Tellechea stated that the Board had the Proposed Settlement Agreement which had been executed by all parties and there was no one present representing Andrew Byron Efthimiadis. Mr. Tellechea stated that the DOAH case had been dismissed with prejudice, and the cases against the Department and the Board of Pilot Commissioners had been dismissed, with the agreement not to bring any litigation against either party. He stated that the only party remaining was the Port Everglades Pilots Association on a case in Broward County.

Mr. Tellechea stated that the only concession was the agreement to withdraw the notice of intent to deny. He stated that it still brought the same result because Mr. Efthimiadis never received the license. Mr. Tellechea informed the Board that Mr. Efthimiadis was not precluded from applying for a license anywhere in the State of Florida; he has the right to apply, but it does not mean that he will be approved.

Commissioner Hiers asked what the Port Everglades Pilots Association thought of the settlement. Mr. Tellechea responded that Margaret Mathews, Attorney for the Port Everglades Pilots Association, was satisfied with the agreement.

Commissioner Robas questioned if civil litigation were filed, could the Board or Department be called as witnesses? Mr. Tellechea responded that if they try to call Board Members as witnesses, he would try to prohibit that from happening; however, he could be called, as well as Department staff, as a witness in any civil matter.

MOTION: Commissioner Buford made a motion that the Board approve the Consent Agreement as presented for Andrew Byron Efthimiadis.

Commissioner Robas thanked Brian Seuter and Cumberland Sound Pilots Association for the reception last night.

Commissioner Robas informed the Board that the Department agreed to increase the consultant hourly rate, but that the contract cap would not increase. She stated that they need to be selective in Commander Dunton’s assignments, but this does not reduce his Board assignments. Commissioner Robas stated that anything needed from...
Commander Dunton should go thru the Board office as there may be items that the Board office can resolve. She stated that they want to utilize his time effectively and appreciate the work he does, however, he needs to be utilized where his time is most needed with testing and investigations.

Commissioner Buffington commented that the new contract cap is $55,000 and the Board needs to look at raising the contract cap. Commander Dunton stated that he should break even with the next contract with the increase in the hourly rate and suggested that the leave the cap as is, and possibly revisit this issue next year. He stated that he is well under the cap this year; however, you never know what will happen. Commissioner Buffington expressed concern that if he is close to his contract cap it may be a long approval process to expand his contract, and Commander Dunton needs to be able to respond to any crisis. Commissioner Buffington suggested the contract be increased by $10,000 in order to cover a possible marine casualty. Commissioner Robas informed the Board that she felt that Jerry Wilson would help the Board if the need arose.

Commissioner Molitor stated that there should be a plan in place. Ms. Barineau informed the Board that she would make Mr. Wilson aware of the potential need for an increase in the contract.
