NEW BUSINESS

Mr. Bayo advised the board that there are companies where you can send your dog's blood sample and they will run tests and give the results positive or negative for heart worms. He stated that the pet owner then takes the results to their veterinarian for the veterinarian to prescribe treatment.

Ms. Loucks stated that it is up to the veterinarian whether they wanted to accept the test or not.

Dr. Shores advised the board that he wanted to bring this issue to the board's attention. He thanked the board for listening to the issue.

The meeting adjourned at 2:10 p.m.
