## **REPORTS**

### **Board Chair – Dr. Sergio Vega**

Dr. Vega advised the board that he was the committee of one to address the problems with the veterinary technicians. He stated that he met four (4) times with the FVTA and the FVMA. He stated that he cares about the issue and he tried to find a solution. He stated that he found the technician association leadership had insisted on an agenda that if followed would create considerable hardship for most veterinarians and that would bring a number of problems to the board such as unlicensed activity. Dr. Vega advised the board that he told both associations that he would not allow either side to waste the board's time with their quarrels. He stated that he would not support any measure in his opinion would put the board or the public's interest at risk. He advised the board that he would not allow either association to address the board until they submitted a petition in writing. He stated that they have wasted the board's time.

Mr. Vaccaro advised the board that before anyone with any type of legislative proposal comes before the board that they come to the Department first and speak to the Department about the issue. He stated that any type of action that may require potential licensure and have a fiscal impact on the State would require analysis by the Department, the Governor's office, planning and budget office and the legislature.

Dr. Jones thanked Dr. Vega for taking on the technician issue which is a difficult task.

Dr. Vega congratulated the new members on their appointments.

Dr. Vega stated that the board lost two (2) members, Dr. O'Neil and Ms. Lewis. He stated that it is hard to think of the board with out them. He stated that they both did a great job with distinction, dedication, and honesty. He stated that he wanted to thank them.

### **Prosecuting Attorney – Drew Winters**

Mr. Winters reviewed his report with the board and stated that there were one hundred and sixty five (165) cases in the legal section.

### **Board Counsel – Jeffrey Jones**

Mr. Jones stated that he had nothing to report and he welcomed the new board members.

### **Executive Director – Juanita Chastain**

Ms. Chastain advised the board that Dr. Pom had invited the board and staff to tour the PRN offices across the street from the hotel after the meeting.

### **Old Business**

No old business.

### **New Business**

Mr. Schaefer advised the board that he wanted to update the board on the FVMA's plans for the 2007 and 2008 legislative session. He stated that efforts over the past two (2) years were made by individuals who were seeking to be exempted from the veterinary practice act. He stated that in order to look at public protection and to maintain high standards of general health care in Florida changes needed to be made to the veterinary practice act. He stated that the hope was that 2007 would not be a legislative year where the FVMA would have to be in a position to present changes that the practicing profession would like made. He stated that the State Legislature had some high priorities for 2007. Mr. Schaefer advised the board that the FVMA received signals not to have a major veterinary bill this year but to please look to 2008. Mr. Schaefer stated that the preferred way to do this was to work with the Department and to have Chapter 474 changes done through a Department bill rather than a bill brought forward by a House or Senate panel. He stated that step number one was to get authority under the veterinary practice act for the board of veterinary medicine to take on the responsibility for establishing standards of practice, licensing and discipline and investigate other professionals that provide animal medical care. He stated that step number two (2) would be to allow the board to have authority over unlicensed activity complaints. Mr. Schaefer advised the board that the third area would be full credentialing of certified veterinary technicians in the State of Florida. He stated that this would give the board the authority to have in the practice act the definition of a certified veterinary technician. He stated that the board would have the rule making authority to look at procedures that can be delegated to a certified veterinary technician versus a non-certified veterinary technician under in-direct rather than direct supervision in ways that would not penalize the veterinary practice that does not have a certified veterinary technician.

Mr. Schaefer stated that the only bill for the 2007 legislative session that has an impact on veterinary medicine, is a bill introduced by the Department of Health over the last three (3) years. He stated that the subscriber of a scheduled drug

would have to submit the name of the patient and the prescription to a central data base. He stated that the central data base would analyze the patient and the prescribing practitioners prescribing patterns to see if they are out of the norm. He stated that there was an effort this legislative session to introduce a Lemon Law re-write as well as standards for boarding and grooming facilities that the FVMA would be involved in. He stated that it was a carry over from the 2006 Legislative session.

Mr. Schaefer welcomed the new board members Dr. Leonard and Ms. Hurley. He stated that the FVMA would be recognizing Dr. O'Neill and Ms. Lewis for their wonderful years of service.

### **NEW BOARD MEMBER TRAINING**

Ms. Chastain presented a power point presentation to the board to provide a clear understanding of the board member's roles and responsibilities and to provide an overview of the Department.

**MOTION:** Ms. Hurley made a motion to adjourn the meeting

**SECOND:** Dr. Leonard seconded the motion and the motion passed unanimously.

The meeting was adjourned at 11:45 a.m.
