http://www.MyFloridaLicense.com/DBPR
The Department of Business and Professional Regulation issues twenty-one (22) different construction licenses: General, Building, Residential, Mechanical, Class A Air Conditioning, Class B Air Conditioning, Roofing, Sheet Metal, Commercial Pool, Residential Pool, Pool Service, Plumbing, Solar, Underground Utility and Excavation, Pollutant Storage, Specialty Structure, Glass and Glazing, Gypsum Drywall, Marine Specialty Contractor, Irrigation and Gas Line. Visit the Construction Industry Licensing Board web site to find out more about the categories: http://www.myfloridalicense.com/dbpr/pro/cilb/index.html

This Candidate Information Booklet (CIB) provides general information common to all of the examinations. Specific information describing the content areas tested and references materials for each examination can be found in the “Examination Content Information” and “Reference List” documents for each trade. In addition to the specific content areas listed for each examination, knowledge of basic mathematics is required for each part of the examination. With the exception of the Isometric Drawing portion of the Plumbing General Trade Knowledge Examination, all questions will be multiple choice with four (4) alternative answers and will be equally weighted.

It is your responsibility to obtain a Candidate Information Booklet, Reference List, Examination Content Information and an Update Flyer effective for the examination date for which you are scheduled. You can contact the Department or refer to our web site for the most current information. Visit this link on the web for current and future Examination Information: http://www.myfloridalicense.com/dbpr/servop/testing/ConstructionExamInformation.html

Candidates must pass all required examinations to be licensed. The examinations you take will depend upon which license you are seeking and whether you already hold another construction license. Passing candidates applying for examination in an additional category may be exempt from taking the Business and Financial Management portion of the examination (appropriate board rule exercised, especially for Pool Service category).

II. BUSINESS AND FINANCE AND CERTAIN TRADE KNOWLEDGE CATEGORIES COMPUTER BASED EXAMINATIONS

OVERVIEW

The Business and Financial Management Examination consists of 120 test questions. Candidates are allowed 6 ½ hours, 390 minutes examination time, to complete the examination. The Business and Financial Management Examination for Pool Service category candidates consists of 60 questions with 3 ½ hours, 210 minutes examination time, to complete the examination.

The Business and Finance Examination is administered via computer. The Department of Business and Professional Regulation has retained the services of Pearson VUE, to schedule, administer, score and report the results for the computer based tests. Pearson VUE is a leading provider of assessment services to regulatory agencies and national associations and offers licensing and credentialing support services to associations, state agencies, and private industry.

The Trade Knowledge examination parts for the following categories are all offered as computer based testing (CBT): Glass & Glazing, Marine Contractors, Commercial Pool, Residential Pool, Service Pool, Solar, Irrigation, Roofing, Underground Utilities, Sheet Metal, Gypsum, Specialty Structure, Gas Line, Pollutant Storage and Air “B”. Service Pool consists of 60 questions while all other categories consist of 80 questions. Each category is allowed 5 hours (300 minutes) of time to complete the examination.
Your examination(s) will be administered on an electronic testing system. The testing system eliminates the use of paper, pencil and answer sheets. Candidates input their responses by entering the answer of their choice (A, B, C or D). Before you begin the examination, you will have an opportunity to go through a tutorial on the computer. The computer is very simple to operate; it should only take you a few minutes to learn to use it.

The screen features a variety of function buttons to help candidates navigate through the examination. The function buttons are located in the same position throughout the test. Candidates can mark a question for review, move forward or backward one question at a time, or move to a specific question. The summary screen, which can be accessed at any time during the examination, shows candidates the following:

• Number of questions answered
• Number of questions unanswered and/or skipped
• Time remaining for the examination

Consequently, any marks or notes candidates made in their test booklets during the examination will NOT be available during the review. Candidates will not be scheduled for a review twenty-one (21) days prior to the next examination. For informal review and formal hearing procedures visit http://www.myfloridalicense.com/dbpr/servop/testing/ExamReview.html
Review Session

The review session is considered to be an extension of the examination administration. Only the candidate may attend the review session. Proper identification is required to obtain entry. For example, for an exam lasting 2 hours and 30 minute, the candidate will be allowed 1 hour and 15 minutes to review.

Challenge Process

Written challenges are accepted for DBPR developed examinations. Candidates are given an opportunity during the review session to note in writing or on the computer, any objections they have to questions answered incorrectly. The challenges are forwarded to the Bureau of Education and Testing for review by a Psychometricians and subject matter experts to determine if there is any merit to the candidate’s objection. The response time to challenges, on average, is approximately 4 weeks. Due to the confidential nature of the examinations, the only response you will receive is “credit” or “no credit” for each challenged question. Credit will only apply to the candidate who reviewed and challenged. PAPER AND PENCIL EXAMINATION SCHEDULING

You will be scheduled for the written examination date and site that you selected on your application. Prior to the examination you will receive an Admission Card. Verify that the examination parts, date and site for which you have been scheduled are correct. If they are not correct or if you do not receive an Admission Card seven (7) days prior to the examination date immediately contact the vendor at 407.264.0562. Do not wait till you are in the examination room before you question it. The deadline for scheduling a paper and pencil examination is thirty days (30) prior to the examination date.

PILOT TESTING

The examinations may contain a small number of experimental or “pilot test” questions. The purpose of including pilot test questions within the examination is to expand and improve the bank of questions from which future examinations will be drawn. This is a common practice used by many national and state examination programs and is a critical step in ensuring the continued reliability and validity of these examinations. In the event that pilot test questions are included within the examination, these questions will NOT be counted when computing scores. Additional time will be given for answering the pilot test questions. The time allowed for testing has been evaluated to ensure there is adequate time for completing test questions and pilot questions.

Pilot questions are NOT identified. The development of a good examination requires accurate candidate response information for the pilot questions.

ANSWER SHEETS

Carefully follow the examination supervisor’s instructions on completing the answer sheet. It is your responsibility to correctly “bubble” in your candidate identification number, your examination number, and the first four letters of your last name (e.g., John Smith would bubble in “SMIT” in the space provided).

Your answers must be recorded on the answer sheet provided to you at the examination. Answers recorded in the examination booklet, will NOT be scored. It is recommended that you fill in your answers as you answer each question rather than waiting until the end of the examination. It is your responsibility to turn in your completed answer sheet, all examination materials, and scratch paper for each session when the allotted time for that session has passed.

NOTE: Do not wait until the 15-minute time warning to transfer your answers from the test booklet to the answer sheet. You will NOT have sufficient time to transfer all answers. Candidates CANNOT complete the transfer of answers after time is called. Answers that were not transferred during the AM session CANNOT be transferred during the PM session. You will ONLY receive Credit for answers on your answer sheet.

TEST TAKING ADVICE

The advice offered here is presented primarily to help you demonstrate your knowledge and maximize your chances of passing the examination.

• Read all instructions carefully.

• For best results, pace yourself by periodically checking your progress. This will allow you to make any necessary adjustments. Remember, the more questions you answer, the better your chance of achieving a passing score. There is no penalty for guessing, so you should answer every question.
• Be sure to record an answer for each question, even the items for which you are not completely sure. You can note the questions you want to reconsider in the examination booklet and return to them later.

• Speak to a proctor or Examination Supervisor concerning any problems that may occur during the examination. Do not wait until the examination is over to inform someone of a problem.

• Inspect your examination materials to verify that you have been given the correct examination for your trade and that your packet contains all of the listed documents. Immediately inform your proctor if you find a discrepancy.

You may take up to fifteen (15) minutes to complete the tutorial, and the Test Center Manager will answer any questions you may have about the computer testing unit at this time.

• The time you spend on the tutorial will NOT reduce the time allotted for taking your examination. When you feel comfortable with the computer testing unit, you may begin your examination. Candidates who pass ALL required parts become eligible for certification upon presenting to the board payment of the initial licensing fee, proof of insurance, a proper financial statement and credit report, and any required information about business organizations for which they intend to act as qualifying agents. You will receive an instruction sheet with your grade report containing further details on becoming certified.

Amended Grades: A quality control process is carried out to verify the accuracy of examination grades prior to ratification by the board. In the event that a scoring error is found, you will be sent an amended grade report approximately four (4) weeks after your examination. Grade results and or pass/fail status will not be given out over the telephone. Please do not call the vendor, board office or the Bureau of Education and Testing for this information.

NOTE: A statistical comparison of all responses on your scan sheet with responses given by other candidates may be performed. Any irregularities identified by this analysis may be considered grounds for denial of licensure.
