I. INTRODUCTION

This Candidate Information Booklet (CIB) is designed to introduce Computer Based Testing and provide candidate information for this examination.

The Department of Business and Professional Regulation has retained the services of Pearson VUE to schedule, administer, score and report the results for computer based testing. Pearson VUE is a leading provider of assessment services to regulatory agencies and national associations and offers licensing and credentialing support services to associations, state agencies, and private industry.

Your examination(s) will be administered on an electronic testing system. The testing system eliminates the use of paper, pencil and answer sheets. Candidates input their responses by entering the answer of their choice (A, B, C or D). Before you begin the examination, you will have an opportunity to go through a tutorial on the computer. The computer is very simple to operate; it should only take you a few minutes to learn to use it.

The screen features a variety of function buttons to help candidates navigate through the examination. The function buttons are located in the same position throughout the test.

Candidates can mark a question for review, move forward or backward one question at a time, or move to a specific question.

The summary screen, which can be accessed at any time during the examination, shows candidates the following:

- Number of questions answered
- Number of questions unanswered and/or skipped
- Time remaining for the examination

II. TESTING LOCATIONS AND RESERVATIONS

NOTE:

THE FLORIDA SECTION (SECTION F) PRACTICE AND PLANTS EXAMINATION IS A VERY THOROUGH EXAMINATION AND REQUIRES SERIOUS PREPARATION. CANDIDATES WHO PASS THE NATIONAL EXAMINATION AND FAIL THE FLORIDA SECTION (SECTION F) WILL NOT BE ELIGIBLE FOR LICENSURE UNTIL A PASSING GRADE IS ACHIEVED.

PILOT TESTING

The Examination may contain a small number of experimental or “pilot test” questions. The purpose of including pilot test questions within the examination is to expand and improve the bank of questions from which future examinations will be drawn. This is a common practice used by many national and state examination programs and is a critical step in ensuring the continued reliability and validity of these examinations.

In the event that pilot test questions are included within the examination, these questions will NOT be counted when computing scores. Additional time will be given for answering the pilot test questions. The time allowed for testing has been evaluated to ensure there is adequate time for completing test questions and pilot questions.

Pilot questions are NOT identified. If the pilot questions were identified, many of the candidates would skip them, and the results would not be valid. The development of a good examination requires accurate candidate

response information for the pilot questions.

TEST TAKING ADVICE

The advice offered here is presented primarily to help you demonstrate knowledge and maximize your chances of passing the examination.

- Read all instructions carefully.
- For best results, pace yourself by periodically checking your progress. This will allow you to make any necessary adjustments.
- Be sure to record an answer for each question, even the items about which you are not completely sure. You can note the questions you wish to reconsider on the computer testing system and return to them later.
- Alert a Proctor or Test Center Manager to any problems that may occur during the examination. Do not wait until the examination is over to inform someone about a problem.

SUPPLIES

It is expressly understood by each candidate that the State of Florida, and/or the Department of Business and Professional Regulation, and the Department's staff hereby assume absolutely no liability of any nature whatsoever for any items of the candidate's personal property which may have been brought to, left at, or left outside the examination site.

It is further understood that the candidate's admission to the examination shall hereby constitute the candidate's full, knowing, and complete waiver of any and all such claims against the State of Florida, and/or the Department of Business and Professional Regulation, and the Department's staff.

For more information regarding special testing accommodations, please visit webpage: <http://www.myfloridalicense.com/dbpr/servop/testing/ADA.html> or call 850.487.9755

V. SCORING INFORMATION AND GRADE NOTIFICATION

SCORING PROCEDURES

All questions are equally weighted. The grading process includes a statistical analysis of each question on the examinations. Questions found to be statistically deficient are subject to further review. In the event that this review leads to a change in the answer key that affects your score, you will be sent an amended grade report 2-3 weeks after the examination.

Examination scores are reported as a scaled score. The minimum score needed to pass has been scaled to seventy-five (75%).

NOTIFICATION OF RESULTS

All candidates will receive an official photo-bearing exam result report immediately following completion of their examination. Please verify that all information is correct on your exam result report prior to leaving the test center

EXAMINATION REVIEW & CHALLENGE PROCESS

Candidates who fail an examination are entitled to review the questions they answered incorrectly, under such terms and conditions as may be prescribed by the Department of Business and Professional Regulation. Candidates are entitled to review only their most recent examination. The candidate shall be permitted to review only those questions the candidate answered incorrectly.

The request to review must be made within 21 days from the date of the examination and can be scheduled by going online to: <http://www.PearsonVUE.com> or by calling 1.888.204.6230.

The same security requirements observed at the examination will be followed during the review session. Reviews will be held at a Pearson VUE testing center.

Review Fees

Computer Based Testing Examination and Review Fee Matrix

Review Session

The review session is considered to be an extension of the examination administration. Only the candidate may attend the review session. Proper identification is required to obtain entry. There will be no talking or note taking of any kind. Candidates are usually given one-half of the exam administration time. For example, a 2 hour and 30 minute examination will only receive 1 hour and 15 minutes to review. Candidate will not be able to see their original exam book since it is not retained, after the exam.

Challenge Process

Written challenges are accepted for DBPR developed examinations. Candidates are given an opportunity during the review session to note in writing, on the computer, any objections they have to questions answered incorrectly. The challenges are forwarded to the Bureau of Education and Testing for review by a Psychometrician and subject matter experts to determine if there is any merit to the candidate's objection.

The response time to challenges, on average, is approximately 21 days. Due to the confidential nature of the examinations, the only response you will receive is "credit" or "no credit" for each challenged question. Credit will only apply to the candidate who reviewed and challenged. Per Rule 61-11.017(g) the candidate's challenges must be submitted in writing during the scheduled review. Any challenges or supporting documentation submitted after the candidate has left the review room shall not be accepted.
